Professional or recreational. Competition or fun. Based in Fürth, Germany, uvex is one of the leading international manufacturers of personal protective equipment and has been inspiring customers with pioneering technologies and innovative products for more than 90 years. Whether it’s leisure, sport, or work, uvex products help you to achieve your best. uvex – protecting people since 1926.
Proudly protected by uvex

Protecting people is our mission, our responsibility – but also our passion. We are proud of our athletes’ performance that we support and protect with the highest level of safety. When split seconds count. In every moment, 365 days of the year.
wherever your adventures take you

Release the reins. Feel the fresh air on your face. Canter through the surf or trot along dusty trails.
wherever you want to explore

Cross-country or paddock. Leafy canopy or clear sky. Leisurely walk or full gallop.
wherever you seek new challenges

Riding student or professional equestrian. Set goals, and overcome obstacles. Experience the rhythm and cadence of genuine teamwork. Perfect balance on every transition.
wherever you ride

A uvex riding helmet is the perfect headgear for dressage, show jumping, or cross-country. Training, eventing, or leisurely hacking. Whether you opt for a traditional or more fashionable style, every uvex riding helmet offers a sophisticated design, high-quality finish, superior ventilation, and, of course, unbeatable safety.

For exceptional protection – 24/7, 365 days of the year – uvex is the go-to choice. Wherever you ride.
wherever you ride

riding helmets

Dressage, eventing, jumping, or just for fun. The uvex riding helmet collection guarantees the perfect combination of style and safety. For every rider. For every discipline. With high-quality materials, appealing designs, optimal fit, and ultimate comfort.

uvex helmets are made to meet all your equestrian needs – like the uvex elexxion, with its sporty style, climate control, and precise, ergonomic fit. All uvex riding helmets feature soft, washable pads that ensure optimal size adjustment and superior comfort at all times.
The uvex elexxion pro ltd hybrid helmet is a real eye-catcher, wherever you ride. Dirt track or homestretch. High-quality detailing in mat, gloss, and chrome completes the classy design. The 3D IAS system guarantees a perfect fit on every head. The ventilation system is also adjustable, providing a cooling flow of air even on hotter days. Whether you are bold enough for champagne pink or prefer the classic color combinations, the uvex elexxion makes a real statement. Made in Germany.

Ventilation system with chrome detailing
The ventilation system is individually adjustable to ensure optimal climate management, while the chrome detailing adds that extra wow factor.

Increased durability
The unique wrap-around EPS shell protects the edges of the helmet for increased durability, which means this helmet will look great for longer.

Slim fit inner lining
The removable and washable slim fit interior pads ensure the best possible comfort, while the height and width adjustable 3D IAS system ensures a perfect fit on every head.
**pink ribbon edition**

The objective of the Pink Ribbon symbol is to raise breast cancer awareness.

In Germany, one woman in eight develops breast cancer at some stage in her life. Around 70,000 women are newly diagnosed every year. In most cases, early detection and treatment increases the chances of recovery.

uvex works together with many prominent riders, such as eventing Olympic champion Ingrid Klimke, for Pink Ribbon Germany. The non-profit organization provides information and education about breast cancer and the benefits of early detection.

Show your support and wear a ribbon! For each pair of uvex pink ribbon edition gloves, uvex donates 5 euros to Pink Ribbon Germany. uvex also donates 50 euros per helmet sold to the non-profit organisation.*

*uvex pink ribbon edition only available in Germany.
glamour meets design

The uvex suxxeed diamond is the new glam model in the popular riding helmet series. Created together with designers from Swarovski®, the uvex suxxeed diamond features a magical starry sky on your helmet. High-quality Swarovski® crystals and pearls twinkle in a variety of colors on a silky satin background. The range of sparkling colors is matched to the color of the helmet: clear, anthracite, and dark colors on the black helmet, and a variety of blues and purples on the blue helmet.

With its unique design, the uvex sportstyle diamond glove provides the perfect match. The glove is adorned with a miniature starry sky of enchanting Swarovski® crystals and features silk-matt velour on the closure.

Team the uvex suxxeed diamond with the uvex sportstyle diamond to add some sparkle to your outfit!

Little beginners and young, aspiring professionals will love the uvex kids riding helmet collection. If you’re looking for a suitable helmet for your youngster’s fun days in the saddle or for their next gymkhana, look no further. uvex riding helmets are tested to the latest safety standards, so making the right choice for young riders is easy.

With classic designs and attractive outer shells, such as the uvex onyx shiny black or the playful uvex onyx with its pony design, this popular children’s helmet collection delivers uncompromising protection.
The uvex onyxx creates a new milestone for safety. Like all uvex riding helmets, this junior model is made in Germany and meets all relevant safety standards. It provides that all-important protection for the first jump or local hack. The key attributes of low weight and exceptionally good ventilation, along with the climate-regulating interior, make the helmet super comfortable to wear. And the Fast Adapting System (FAS) makes the helmet easily adjustable for a secure fit.

**uvex onyxx**

1. **uvex 3D IAS system**
   - The helmet’s 3D IAS system ensures quick and easy adjustment and a perfect fit for any shape of head.

2. **uvex monomatic**
   - The uvex monomatic comfort lock can be opened and closed with one hand, at the touch of a button, so the chin strap always fits perfectly.

3. **FAS**
   - The fast-adapting system strap can be adjusted quickly and easily to give a precise fit, ensuring the helmet remains secure at all times.
**uvex onyx glamour**

Sparkling accents are no longer reserved for the “big ones”. The uvex onyx children’s riding helmet series offers uncompromising safety. Now the popular children’s helmet is also available in the uvex onyx glamour version.

uvex sportstyle kid
S45.7.262.02
Tournament or training session. On or off the trail. Through streams or rain showers. Whatever your discipline, wherever you ride, the secure grip and comfortable fit of uvex riding gloves can be relied on.

Whether you prefer a short, athletic style, like the uvex ceravent, or an elegant design, like the uvex sportstyle diamond with original Swarovski® crystals: protect your hands with the lightweight and durable uvex riding gloves.
Dusty trails on hot days. Rubber reins in heavy rain. Stay in control with the uvex ceravent. The innovative, moisture-control riding glove guarantees an optimum grip in all conditions, while the abrasion-resistant ceraspace™ ceramic coating offers extreme durability. The material on the fingertips allows for easy operation of a smartphone touch screen.

Short, athletic style
This shorter style sports glove has a snug, comfortable cuff and can be teamed with any riding outfit.

Touchscreen-sensitive
Light and grippy, but with touchscreen-sensitive capability. The pleasantly soft material on the fingertips makes the uvex ceravent a great choice for smartphone users.

ceraspace™ coating
The functional material has a ceramic coating for extra durability.
uvex ceravent

“Riders are athletes” is the credo that this new, strikingly short riding glove was tailored to. Extreme durability thanks to minimal abrasions as well as a perfect fit and flexibility – that is the new uvex ceravent.

The innovative design, reminiscent of the grip accents of modern riding attire, makes the uvex ceravent a contemporary choice.

Features
- 4D stretch
- Abrasion resistant
- Excellent grip
- Stretch venting
- Moisture management
- Touchscreen capability
- Washable (30°C)

Material
- Backhand: ceramic-coated stretch material 80% polyamide, 20% elastane
- Palm: 100% polyurethane composition (70% polyurethane, 30% nylon)

uvex tensa II

uvex tensa riding gloves are back – and setting new standards for the best grip for riding and driving. uvex tensa riding gloves offer high durability and control, even under extreme conditions – whether you’re holding the reins or driving lines, in wet weather or during a sweaty workout.

Features
- 2D stretch
- Touchscreen capability
- Washable (30°C)

Material
- Backhand: 60% polyurethane, 40% polyamide
- Palm: 100% polyurethane composition (70% polyurethane, 30% nylon)
# uvex sportstyle diamond

An elegant glittering motif made of Swarovski® crystals now adorns the tab closure of the uvex sportstyle diamond and makes it an absolute eye-catcher on the dressage or showjumping course. It offers active moisture management and the highest level of wearing comfort.

An elegant glittering motif made of Swarovski® crystals now adorns the tab closure of the uvex sportstyle diamond and makes it an absolute eye-catcher on the dressage or showjumping course. It offers active moisture management and the highest level of wearing comfort.

## Features
- 2D Stretch
- Tab closure with Swarovski® crystals
- Reinforced
- Touch screen capable
- Washable (30° C)

## Material
- Backhand/palm: 60% polyurethane, 40% polyamide

## uvex sumair

A secure hold of the reins is crucial even under strenuous conditions. Sweat and moisture must not stand in the way of a firm, flexible grip. The material mix of the uvex sumair delivers what it promises.

## Features

uvex i-performance 2 pink ribbon

Today, the pink ribbon is an unmistakable symbol of the worldwide campaign to raise awareness of breast cancer. Like the many international celebrities who wear the pink ribbon, show your support for this important cause with the stylish uvex i-performance 2 pink ribbon. For each pair of uvex pink ribbon edition gloves, uvex donates 5 euros to Pink Ribbon Germany. Only available in Germany.

uvex sportstyle

The uvex sportstyle is a highly elastic glove made of non-slip PU material. Due to the elastic inserts on the wrist and the back of the hand, it offers a high level of wearing comfort. A clean design, excellent durability and grip, and uncomplicated care properties enable versatility in everyday use.

Features

- 2D Stretch
- Abrasion resistant
- Excellent grip
- Touch screen capable
- Washable (30°C)

Material

- Backhand/palm: 40% polyester, 60% polyurethane, 8% elastane
- Palm: 60% polyurethane, 40% nylon
- Tricot: 90% nylon

uvex sportstyle winter

The uvex sportstyle winter is the riding glove that makes a difference during the winter time. Durability and comfort are only two of its characteristics.

Features

- 2D Stretch
- Reinforced
- Washable (30°C)

Material

- Backhand/palm: 60% polyurethane, 40% polyester
- Thinsulate insulation (40g)
- Lining: 87% polyester, 13% elastane

uvex crx700

A glove for the stormy season and an all-rounder in the stable. Thanks to the Schoeller® soft-shell material with wind-repellent, water-repellent, and heat-retaining properties, the glove is a breathable and warming companion between seasons. The use of 4D stretch and abrasion-resistant PU material on the palm also ensures an excellent riding experience.

Features

- 4D Stretch
- Reinforced
- Reflective print
- Abrasion resistant
- Excellent grip
- Touch screen capable
- Washable (30°C)

Material

- Backhand: Soft shell 40% polyester, 36% polyamide, 13% polyurethane, 8% elastane
- Palm: 60% polyurethane, 40% nylon
- Tricot: 90% nylon

uvex sportstyle kid

Bright colors, classic design, high functionality—the new uvex sportstyle kids riding glove is in no way inferior to the adults models, but it’s sure to be much more fun thanks to the trendy colors. The anti-slip material provides an ideal grip on the reins, while extra stretch inserts guarantee excellent flexibility and wearing comfort.

Features

- 2D Stretch
- Reinforced
- Perforated ventilation

Material

- Backhand/palm: 60% polyurethane, 40% polyester

wherever you ride

eyewear

Classic or trendy. Mirrored or polarized.

uvex sunglasses are available for every style and every face shape. Enjoy the sun, or reduce the glare effect. For dependable protection from UVA, UVB, and UVC radiation up to 400 nm. In summer, on the way to the stables, or in the beer garden. With you all the way, wherever you play.
uvex lgl 43

With a timeless design and on-trend colors, the uvex lgl 43 is the ideal lifestyle eyewear for the city and the outdoors. The mirrored lenses have the highest optical quality. The frame has a slim, feminine design and the havanna-speckled pattern together with the vivid blue-green lenses create an extraordinary color mix. A real eye-catcher that combines style and technology, the uvex lgl 43 is the perfect summer accessory.

1. Comfort
   The adjustable temples on the uvex lgl 43 ensure a comfortable fit.

2. On-trend design
   The uvex lgl 43 is characterized by its excellent design and stylish color mixes in four variations — offering a confident, fashionable look.

3. UV protection
   The high-quality sun protection lenses offer the highest UVA, UVB, and UVC protection up to 400 nm and meet European and international standards.
uvex sportstyle 803 race CV V

The uvex sportstyle 803 race CV V combines the uvex colorvision lens technology with the fully automatic adjustment of the uvex variomatic® lenses. The frameless design ensures the best all-round view.

Features
- uvex colorvision lens technology
- uvex variomatic® lens technology
- uvex supravision® lens technology
- Adjustable soft nosepads
- Soft and adjustable temple ends
- Direct lens ventilation
- 100% UVA, UVB, UVC protection up to 400 nm

uvex sportstyle 803 race CV V small

An extended view is the idea behind the ultra-light uvex sportstyle 803 race CV V small. The large litemirror lenses ensure the best protection even in a low riding position. The frameless design guarantees the best all-round view. And the uvex variomatic® lenses automatically adapt to the current light conditions.

Features
- uvex colorvision lens technology
- uvex variomatic® lens technology
- uvex supravision® lens technology
- Adjustable soft nosepads
- Soft and adjustable temple ends
- Direct lens ventilation
- 100% UVA, UVB, UVC protection up to 400 nm

uvex sportstyle 706 CV V

The uvex sportstyle 706 CV V combines uvex colorvision lens technology with the fully automatic adjustment of uvex variomatic® lenses (cat. 1–3). The durable eyewear for trail lovers delivers the best vision in all light conditions, increased color brilliance, and more contrast.

Features
- uvex colorvision lens technology

**Helmets**

**Protection**
Certified in accordance with EN 1384:2012-02 + VG1 01.040 2014-12

**Shell materials**
- **Outer material**
  - PC: hardshell
  - ABS: hardshell
  - Safety thanks to the strongly bonded PC shell.

- **Inner material**
  - EPS: hardshell/inmould
  - Protective material made from microscopical air chambers that absorb the incident force of an impact.

**Shell construction**
- **Hardshell**
  - The helmet has a molded outer shell and EPS inner shell for a most efficient safety combination: draw fresh air in and expel warm air.

- **Hybrid**
  - Advanced technology unites the durable hard-shell construction of the upper helmet with the inmold process of the lower helmet.

**Fit**
- **Shell sizes**
  - Perfect fit = head shape + head circumference. Whether large or small, rounder or squarer: sizes to ensure the perfect fit for every hand shape and size.

- **uvex IAS 3.0**
  - With the uvex IAS 3.0 system, helmets can be adjusted in width.

- **Monomatic**
  - The uvex monomatic comfort lock can be opened and closed with one hand.

**Comfort**
- **Vent system**
  - uvex places the highest value on optimal ventilation: cleverly designed ventilation channels draw fresh air in and expel warm air.

- **Removable lining**
  - Basic pads
  - X-fit pads
  - X-vent pads

**Gloves**
- **Material**
  - Polyurethane
  - - Nylon stretch: High-stretch material for the back of the hand
  - - Breathable
  - - Excellent grip
  - - Touchscreen compatible
  - - Machine washable up to 30°C

- **PU composition**
  - Polyurethane-coated nylon
  - - Durable
  - - Breathable
  - - Excellent grip
  - - Touchscreen compatible
  - - Machine washable up to 30°C

- **Ceramic-coated**
  - Abrasion resistant
  - Elastic
  - Anti-slip
  - Moisture management
  - Fast drying
  - Machine washable up to 30°C

**Fit**
- **Glove sizes**
  - uvex glove sizes are based on the standard French glove sizing system. Available in half sizes to ensure the perfect fit for every hand shape and size.

- **uvex equestrian gloves**
  - Mold to the hand like a second skin.
  - High stretch and great ventilation for the best connection between you and your horse.

- **uvex equestrian gloves**
  - Stretchy fabric inserts provide stretch in every direction.

**Comfort**
- **Grip**
  - uvex uses materials with an extremely high grip surface ensuring reins always feel secure in the hand. Whether conditions are wet or dry, the horse can be reliably led at all times.

- **Ventilation**
  - Flexible fabric inserts made from lightweight stretch material, plus perforations on the fingers, allow sweat and moisture to evaporate before they have a chance to build up in the glove.

- **Reinforced**
  - Double layers of material are particularly hard-wearing. Low-stress areas have a single layer of material, for maximum sensitivity.

- **Touchscreen compatible**
  - Open-pored material at the fingertips on many uvex riding gloves allow the rider to comfortably feel the reins, and makes them touchscreen compatible with all current smartphones.
one brand.
one mission.
one vision.

uvex products protect people at work as well as in sport and leisure. As a partner of international top-level sport, uvex equips over 1,000 professional athletes worldwide.

The transfer of knowledge between uvex safety and uvex sports makes our products even safer, more functional, and more comfortable – both product divisions benefit mutually from this collaboration.

This was perfectly demonstrated at the Challenge Roth 2019, the biggest long-distance triathlon competition in the world: uvex safety provided equipment to the construction team and uvex sports equipped the athletes – that's what you call successful teamwork.
