

## **Best of both worlds: uvex ultra pro**

**The uvex ultra pro is engineered with super-light in-mould technology and an ultra impact-resistant hardshell. This hybrid helmet par excellence combines top-quality design with unique comfort and outstanding safety – and weighs just 350 grams.**

Fresh powder under your skis. Winter sun on your face. Fine snow crystals swirling through the air. Every skier remembers their sweetest powder days. And the uvex ultra pro is the right, reliable, super-light and stylish companion. It's a ski helmet with innovative hybrid technology, made for those perfect winter moments.

## **Outstanding safety and top comfort for every downhill run**

The uvex ultra pro combines the best of two proven technologies – and design worlds. The glossy in-mould outer shell on the lower section of the helmet is ultra-light, the matt hardshell on the upper section is particularly robust and impact-resistant. This is combined with a shock-absorbing EPS inner shell to absorb impact energy should the worst comes to the worst. A further advantage of this hybrid construction is that it is possible to include large ventilation openings at the upper head as well as an active and adjustable ventilation system. For maximum comfort, the uvex ultra pro has a functional Coolmax® inner lining and a magnetic Fidlock® closure system, which can be opened and closed single-handedly. Extremely practical: the proven IAS system adjusts precisely to fit any head shape. And the uvex ultra pro also scores highly when it comes to style and compatibility. Skiers can choose from three sizes (51-55 cm, 55-59 cm and 59-61 cm) and four colours (white-grey mat, black mat, grey-ink mat and leaf-black mat).

**RRP: 169.95 euros**

## About the uvex group

The uvex group brings together three international companies under one roof: the uvex safety group, the uvex sports group (uvex sports and ALPINA) and Filtral. The uvex group is represented in 22 countries by 48 subsidiaries but opts to locate most of its manufacturing in Germany. Two thirds of the company's 2,700-strong workforce (as of December 2019) are employed in Germany. As an outfitter for numerous top athletes, uvex acts as a global partner for international competitive sports. It views its mission statement of "protecting people" as its mandate and duty. To this end, uvex develops, manufactures and distributes products and services for the protection of people at work, sport and leisure.
