## **uvex exxential fade**

SPOGA HORSE February 2018 – uvex news

**A new look for the featherweight, casual all-rounder uvex exxential: the new “fade” design adds some subtle highlights to the matt black helmet. A fine honeycomb pattern placed between the two ventilation inserts from the front to the back of the helmet emphasises its casual design. The dynamic colour gradient in light grey and subtle rose provides the helmet with an additional style factor without being obtrusive. The ideal riding helmet to match casual riding outfits with that certain something!**

Thanks to its in-mould design, the uvex exxential is very lightweight, yet offers the highest level of safety for leisure and competition riders. Inside, the all-round helmet is equipped with the uvex climate regulation, which always provides for a cool head. Featuring the uvex Monomatic comfort closure, the FAS harness and the IAS 3D size adjustment system, the helmet can be precisely and multidimensionally adjusted to the head shape. On top of this, the all-season interior in the uvex Design, specially developed for riders, is moisture-wicking, antibacterial and anti-allergen as well as removable and washable. Like all uvex helmets, the uvex exxential complies with the current safety standards and further safety standards at all times.

## **About the uvex group**

The uvex group unites three internationally active companies under one roof: the uvex safety group, uvex sports group (uvex sports and Alpina) as well as the Filtral group (Filtral and Primetta). The uvex group has 48 subsidiaries in 22 countries, yet, from conviction, keeps the key areas of production in Germany. Two thirds of the 2,600 employees (as of FY 2016/17) work in Germany. A supplier for countless top athletes, uvex is a worldwide partner of international top-class sport. The leitmotif “protecting people” is both a mission and commitment. In addition, uvex manufactures and distributes products and services for the safety and protection of people in the professional, sports and leisure area.
